

Service 226

Change to afternoon bus serving Beacon CC

Some changes are being made to the service 226 and 227 timetables. These include a change to the afternoon journey used by pupils and students attending Beacon Community College and will apply when young people return to school after Easter on 26 April 2011.

Due to additional journeys it needs to operate, it will no longer be possible for the bus to be on the Beacon site for the end of the school day. For safety reasons it has been decided that it should not attempt to access the school when large numbers of pupils and students are coming out of school. The bus will therefore operate direct via Crowborough Hill, departing the stop outside the Police Station at 3.25pm.

Although there will be no change to the morning service used by young people attending Beacon, from 18 April there will be some changes and minor improvements to the 226 during the day and full details are shown in a new edition of the Crowborough Area Bus Timetable.
